2024 New Grad, Software Engineer I
Okta
Toronto, On
Canada

Dear Recruiter,

I am writing to express my interest in the recent engineering graduate position advertised by your company. As a Computer Programming and Analysis student from George Brown College with a diverse background in software developer, tutoring, and leadership, I am eager to bring my skills and passion for technology to your team.

Throughout my academic career, I have focused on developing a solid foundation in both front-end and back-end development, machine learning, and database management. My technical skills include proficiency in HTML, CSS, JavaScript, Python, and Java, alongside experience with React, Bootstrap, Node.js, MongoDB, and Docker. This toolkit has enabled me to craft many applications during my academic journey, showcasing my ability to design and implement high-performance, scalable, and maintainable software solutions.

My tenure as a Tutor and Teacher Assistant at George Brown College and my leadership role as a Store Manager have honed my problem-solving abilities, my commitment to teamwork and collaboration and provided me with a practical understanding of the importance of delivering results in a dynamic environment.

I am particularly drawn to Okta because of its commitment to innovation and its supportive environment for new graduates. I am confident in my ability to learn quickly and adapt to new challenges, making me a valuable addition to your team. I am eager to contribute to Okta's mission to provide innovative solutions to your customers and look forward to the opportunity to discuss how my background, skills, and enthusiasm for technology can support your projects.

Sincerely,

Jaqueline Duarte
